

MS 150

harman/kardon
by HARMAN

A high-performance stereo system with a CD player, FM tuner and dock for your iPod/iPhone device

Specifications

■ harman kardon MS 150

More than 50 years ago, harman kardon engineers developed the world's first stereo receiver – a high-performance component that combined the functions of several systems, which had previously only been available separately. That tradition continues, in style, with the advent of the multitasking harman kardon MS 150 – a sophisticated music system and alarm clock that plays music from virtually any source. As a complete high-performance system with a CD player, FM tuner and universal docking station that's designed to work with your iPod or iPhone device (not included), the MS 150 delivers high-fidelity sound from two 30-watt built-in bass-reflex loudspeakers in a compact, convenient and easy-to-use package. It also comes with auxiliary inputs for integration with other audio products – making the MS 150 a versatile music system that's perfect for the home, office or wherever you like to take in your favorite music.

■ Highlights

- Playback from iPod/iPhone devices
- Two fully integrated 30-watt bass-reflex loudspeakers
- Slot-loaded CD player
- Sophisticated, modern design
- Three analog/auxiliary audio inputs
- Front- and rear-panel 3.5mm headphone jacks
- Digital-audio input
- Front-panel audio input
- MP3 and WMA playback
- FM RDS tuner with six presets
- Clock with sleep timer, alarm and memory backup
- Subwoofer output
- Energy-saving features

A high-performance stereo system with a CD player, FM tuner and dock for your iPod/iPhone device

■ Key Specifications

- Audio section – Continuous average power (FTC), (stereo mode): 30 watts per channel into 6 ohms
- Tuner – Usable sensitivity: IHF 1.3_V/13.2dBf; THD @ 1kHz with 100% modulation, (mono): 0.15%; (stereo): 0.3%; FM adjacent channel selectivity: ±300kHz, 65dB
- Dimensions (H x W x D): 252mm x 488mm x 194mm (9-15/16" x 19-3/16" x 7-5/8")
- Weight: 8.2kg (18 lb)

Depth measurement includes table stand, knobs, buttons and terminal connections, unless stated otherwise. Height measurement includes feet and chassis, unless stated otherwise.

■ Features

Power:

- 30W x 2 into 6 ohms
- Two built-in, bass-reflex loudspeakers let you hear your favorite music with sharp, high-performance quality
- Adheres to the European guideline by exercising low power consumption – or less than one watt of power – while in standby mode

Connectivity

- Docking station (included) allows you to play back digital music from your iPod or iPhone device)
- Subwoofer output for direct connection to powered subwoofers for richer sound and greater bass impact
- Connects to compatible devices such as a portable audio player or a cassette deck via three auxiliary audio inputs: a front-panel stereo mini jack, rear-panel stereo mini jack for line-level or optical-digital audio, and rear-panel dual RCA jacks (line-level)
- Composite and S-Video outputs for use with photo- and video-capable iPod models that support video browsing
- One digital-audio input (mini-TOSLINK) for listening to portable digital audio devices
- Convenient front-panel audio input for use with video-game consoles or portable players
- Front- and rear-panel headphone outputs allow for private listening

Ease of Use:

- Sophisticated, modern design with a black glossy look, futuristic oval shape, mesh grille
- Slot-loaded CD player with CD, CD-R, CD-RW, enhanced CD, MP3 and WMA playback
- Artist and track name information appear in the information display while playing MP3s
- Wide range of playback modes, including shuffle, repeat (one/all) and shuffle with repeat playback
- FM stereo tuner with a Radio Data System (RDS), auto preset, direct-access tuning and six presets
- Three-line dot-matrix display for clear visibility and RDS text updates, which show details such as station/program information
- Sleep timer allows you to listen to your favorite music as you fall asleep – before the system automatically shuts off
- Alarm clock allows you to wake up to your favorite music or station
- Remote control and remote IR sensor allow you to command your system from afar by reading the remote IR sensor on the front panel, behind the mesh grille
- One digital-audio input to listen to sources with digital audio outputs
- Dimmer reduces the brightness of the information screen, or switches it off completely to help save energy
- Subwoofer output (full range) for connection to a powered subwoofer to increase overall bass performance
- Software can be upgraded using a CD-R
