

SOUNDCAST™
UNLEASH YOUR AUDIO

OutCast Jr.

First-class portable wireless speaker system

This weather resistant, wireless speaker lets you enjoy rich multi-directional stereo sound anywhere. The system has a broadcast range of up to 350 feet. Listen to any MP3 player, iPod, computer, home theater, audio system, or your TV by choosing either the UAT or the iCast transmitter (both sold separately). This system includes a rechargeable battery, off-board charging system, power cord for direct connection to any outlet, and a 3.5mm line input for direct play. NMh battery allows for 5-9 hours of uninterrupted play.

NOTE: This product requires the purchase of either an iCast transmitter or a UAT. It does not include a transmitter in the kit.

How to make this device work

- Place the OutCast Jr. anywhere in the home or outside to enjoy music while you relax.
- Connect the transmitter to the desired Pre-out on the receiver. Sold separately.

Tech Notes

- The OutCast Jr. comes with an off-board charging system.
- Connect the transmitter; iCast and U.A.T. are your choices, to the source. Sold separately.
- Plug in the OutCast JR. to any outlet.
- 9 hours of playback! No need to keep it plugged in!
