

SpeakerCast

Incredibly large sound in such a small compact speaker/receiver

Wireless, multi-room, digital music. Transmits signals up 150 feet through multiple rooms indoors. Easy set-up. Sleek design available in both white and Charcoal gray. Includes iCast transmitter for use with the Apple iPod. Allows connection of other audio devices – MP3 players and computers – using the auxiliary input/output jack on the iCast transmitter. Features pause/play and track forward/track back controls for remote operation of the iPod. Included remote has same features, in addition to on/off, volume up/down and a mute button. Features SRS 3D sound field expansion. Small, amplified stereo speaker enclosure incorporating two 3" full range drivers. 50 watt digital amplifier. Power supplied by the internal AC power supply. Transmitters search for open channels in the 2.4GHz band and instantaneously jump to them – ultimately avoiding interference and allowing for unprecedented sound quality. Product Dimensions: 22.6 x 14.3 x 6.4 inches; 13 pounds.

How to make this device work

- Connect the transmitter to the desired Pre-out on the receiver.
- Place the SpeakerCast anywhere in the home or outside to enjoy music while you relax.

Tech Notes

- Connect the transmitter; iCast and U.A.T. are your choices, to the source.
- Plug in the SpeakerCast to any outlet.
- 2 Packages Available.
